- Battery with switch in console
- Guest 15 amp battery charger (three bank)
- Extra 12-volt outlets (each)
- Clarion CMD-5 stereo AM/FM/CD (Sirius-ready)
- Sirius satellite receiver with 6-month subscription
- Four Clarion 1625 coaxial speakers (6.5")
- Clarion four-channel marine amp
- Icom M-422 VHF radio with 8' Galaxy antenna
- External speaker for VHF

Electronics Quoted Per Your Requirements. Custom Installed.

Bluewater 355e

The tournament-quality Bluewater 355e has been designed to meet the demands of serious anglers for speed, range, space and fishability. Whether you're a tournament angler or fish for fun, the new Bluewater 355e delivers everything you could ask for—and more!

An all-new design from the keel up, the 355e combines a powerful deep-vee hull configuration with a spacious flush deck. Our one-piece "Multi-Plex" stringer system has been enhanced with molded storage boxes integrated into the design. The new system provides greater rigidity and includes far more insulation for all of the fish boxes. Every onboard system and each piece of S/S hardware has been scrutinized to be certain it is the very best for the intended use. With a 380-gallon fuel capacity and rated for 900 horsepower, the 355e will take you anywhere the fish are as fast as you care to go.

The 355e also has more of everything that makes Bluewater the choice among Center Consoles. At 35' 9" overall length and 10' beam, the 355e's flush fishing deck is vast. We incorporated a separate deck cap to provide fishermen with 360° of uninterrupted toe space beneath the extra-high gunwale. The deck is fitted with twelve standard rod holders and we provide locking under deck storage to keep your rigs secure when not in use.

Forward, an extra large macerated insulated fish box will hold your big Tuna catch with four more catch boxes built in for good measure. A 90-gallon in-floor livewell and our exclusive 60-gallon transom well (which easily converts to two 30-gallon wells) provide all the bait storage you need. The 355e includes built-in tackle storage for twelve plano trays and a choice of four leaning post/tackle stations.

You can customize the 355e with a host of options. Twin or triple power. Hardtop or tower with duplicate controls and electronics. Instruments and control panel per your specifications. Creature comforts like a head and shower. A variety of luxury seating configurations—the list goes on. All this, plus our flat ride and the best sea-keeping qualities afloat, put the 355e at the head of the Center Console class.

Specs

LOA (including platform).....	35' 9"
Beam	10' 0"
Draft (hull only)	24"
Deadrise (degrees)	24
Dry Weight (pounds)	6840 (without engines)
Maximum HP Rating.....	900
Fuel Capacity (gallons).....	380
Water Capacity (optional) (gallons)	35

Hull And Deck

- High-tech fiberglass construction throughout utilizing multi-directional fabrics and vinyl ester resin
- BW Multi-Plex Structural Stringer Grid incorporating all in deck storage compartments and fuel tank area. Foam filled for insulation and floatation
